

# Victor Nguyen

I'm a friendly Senior Developer that's pretty good at working in today's ubiquitous React ecosystem, but terrible at writing about myself. I'm looking for a team to succeed, fail and grow with. I enjoy a clean commit history.

## Employment History

<b>IAG</b> Dec 2022 - Current	<i>Senior Developer (Contract)</i> Development of MFEs (React, TypeScript) and serverless BFFs (NestJS, Express). Led the development of a new MFE and supporting BFF services, requiring orchestration between upstream services across various teams. Championed improvements to ways of working within my squad and sister teams.
<b>Belong</b> Oct 2021 - Aug 2022	<i>Senior Frontend Developer (Contract)</i> Feature development for the consumer-facing account management app built with Next.js, TypeScript, MobX, Contentful (headless integration) and Styled Components.
<b>Marketplacer</b> Nov 2020 - Mar 2021	<i>Software Developer</i> Rebuilding the consumer-facing side of the e-commerce platform using Next.js, TypeScript, Apollo, Styled Components and React Testing Library. Contributed various client-side performance improvements to the platform.
<b>CourseLoop</b> Jan 2020 - Nov 2020	<i>Senior Frontend Developer</i> Contributing features, performance, accessibility and direction to a suite of TypeScript & React-based curriculum design applications and UI component library.
<b>AKQA</b> Jun 2019 - Dec 2019	<i>Senior Frontend Developer (Contract)</i> Contributed to two React-based projects, a large-scale Gatsby + Contentful integration and a consumer-facing insurance dashboard application.
<b>Publicis Sapient</b> Jan 2019 - May 2019	<i>Senior Interactive Developer (Contract)</i> Feature development for insurance provisioning software. A React, Redux, Flow, Jest codebase integrated with a headless Sitecore instance.
<b>Deloitte</b> Oct 2015 - Mar 2017	<i>Senior Frontend Developer (Contract)</i> Led the client-side development of a cloud accounting application. Hipster stack for the time: React, Redux, CSS Modules, Webpack, Jest, Node, Salesforce integration.
